Plan a quick and safe escape route

Using a pen or pencil show:

- Each person's bedroom
- All windows and doors
- All smoke alarms
- All stairways
- A family meeting place outside
- All doors leading to the outside

What's the safest, fastest way out of your house?

Now draw a route to the outside meeting place from every room in your house.

When you finish your escape plan make sure everyone knows how to get out safely and where to meet outside.

Remember:
Get OUT,
call the Fire Brigade OUT
on 999 or 112 and stay OUT
